

Figure 1

Figure 1 (of 8 Figures total).

Patent application: *Synthesis, and photodynamic therapy-mediated anti-cancer, and other uses of chlorin e6-transferrin.*

Philip Cavanaugh, Inventor

Figure 2

Figure 2 (of 8 Figures total).

Patent application: *Synthesis, and photodynamic therapy-mediated anti-cancer, and other uses of chorin e6-transferrin.*

Philip Cavanaugh, Inventor

Figure 3

Native Gel Electrophoresis:

Lane: 1 2 3 4 5 6

Figure 3 (of 8 Figures total).

Patent application: *Synthesis, and photodynamic therapy-mediated anti-cancer, and other uses of chorin e6-transferrin.*

Philip Cavanaugh, Inventor

Figure 4

**Ce6-Transferrin: Binding Competition
with FITC-Transferrin**

Figure 4 (of 8 Figures total).

Patent application: *Synthesis, and photodynamic therapy-mediated anti-cancer, and other uses of chorin e6-transferrin.*

Philip Cavanaugh, Inventor
